PROFESSIONAL SUMMARY

Motivated beginner in Data Science with foundational knowledge of Python, statistics, computer vision, and data visualization. Completed projects in machine learning, predictive analytics, and web development. Recently completed an internship focused on Automatic Vehicle Helmet and Number Plate Detection using Python, OpenCV, and YOLO.

INTERNSHIP EXPERIENCE

Wavegroove Connect Solutions Pvt. Ltd.

Data Science Intern | Feb 2026 – Mar 2026

- Worked on an Automatic Vehicle Helmet and Number Plate Detection project using Python and OpenCV.
- Developed a solution to detect vehicles and identify helmet usage through computer vision techniques.
- Implemented image processing methods for number plate extraction and recognition.
- Contributed to the development of a simple user interface for structured system interaction.
- Gained hands-on experience in machine learning workflows, image processing, and real-time detection systems.

PROJECTS

Predictive Analytics in Healthcare | Python, SQL, Pandas, NumPy, Scikit-learn

- Analyzed healthcare datasets to predict disease outbreaks, personalize treatment plans, and optimize hospital resource allocation.

Sales Forecasting for Retail Industry | Python, Pandas, NumPy, Matplotlib, SQL

- Built a basic forecasting model using historical sales data to analyze trends and improve business decision-making.

Portfolio Website | HTML, CSS, JavaScript

- Developed a responsive personal portfolio website showcasing projects, skills, and achievements.

Musicfy Clone | HTML, CSS, JavaScript

- Created a web-based music player allowing users to play, pause, and skip tracks with a clean responsive interface.

EDUCATION

Master of Science in Data Science	Karamveer Bhaurao Patil College, Vashi 2025 – Present
Bachelor of Science in Computer Science	J.K Tilak College, Navi Mumbai
HSC in Science	Mazidun Jr College, Airoli

SKILLS

Python	SQL	Pandas	NumPy	OpenCV	YOLO	Matplotlib
Power BI	HTML	CSS	JavaScript	Machine Learning	Data Visualization
